# *Foreword*

WE know of no group of plants which has undergone such changes as orchids have during the past ten years. We feel that this is due to the great quantities of hybrids which have been produced by orchid growers the world over. To keep a collection up to date, it must be supplemented every year with new plants; otherwise, after a period of a few years a collection is far behind the times.

A SIMPLE way to keep a collection up to date is to purchase a few new seedlings of the finest crosses every year and dispose of a few of the poorest of the mature plants.

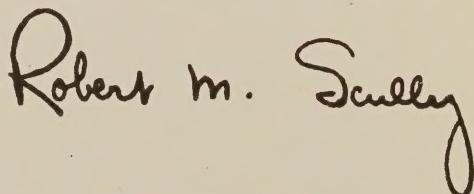

ORCHIDS, like people, differ. With plants, however, the Horticulturist is able to control the variation to a degree and by the use of certain proven parents can predetermine the variations—shape or form of flower, color, and many other hereditary factors.

THE amateur grower should bear in mind the great importance of selecting orchids which represent, generically, the traits which he desires in flowers. As we have pointed out so many times before, poor orchids require the same time to produce as good ones; therefore, do select your orchids cautiously, so that you can be proud of your plants when they bloom.

THE hybrids which we offer represent the finest and are the results of the work of the leading hybridists of the world. The parents used in these hybrids were carefully selected for outstanding qualities. And we believe that the merit of the resulting flowers will bring you many hours of enjoyment.

WE have tried to give you a brief description of what may be expected as to color and season of flower; however, it is difficult to describe accurately the color variations that may be expected in a fine orchid hybrid since they cover such a wide range.

THE beginner is often confused as to the selection of plants which are suited to his given growing conditions; if we can be of assistance in any way in making your selections, we'll gladly help.

A handwritten signature in cursive script, reading "Robert M. Sculley". The signature is fluid and expressive, with varying line thicknesses and ink saturation.

## MISCELLANEOUS GENERA

ANGRAECUM EBURNEUM

### ANGRAECUM EBURNEUM Madagascar

A choice plant for winter flowering. The plant grows in a fan shape and produces heavy spikes of 12 or more flowers from the axils of the leaves. Flowers are greenish-white and have a spur or nectary, several inches in length. Jan.-Feb.

**3"- \$5.00; 4"- \$7.50**

### ANGRAECUM SESQUIPEDALE

Madagascar

One of the curiosities of the orchid family. Heavy, waxy flower with a nectary 10" or 12" in length. Winter.

**2½"- \$4.00**

Flowering size **\$35.00**

ANGRAECUM SESQUIPEDALE

### BRASSAVOLA DIGBYANA Honduras

The most outstanding species of the Brassavolas and the most used in the modern Brasso hybrids. Flowers are green to white-green and have a large fringed labellum. Season variable.

Flowering size, **\$12.50**

### BRASSAVOLA GLAUCA Honduras

Small-growing plant with glaucous foliage. Flowers are about 3"-4", greenish-white and of heavy substance. Spring.

Flowering size, **\$12.50**

BRASSAVOLA NODOSA

**BRASSAVOLA NODOSA ("Lady of the Night")      Central America**

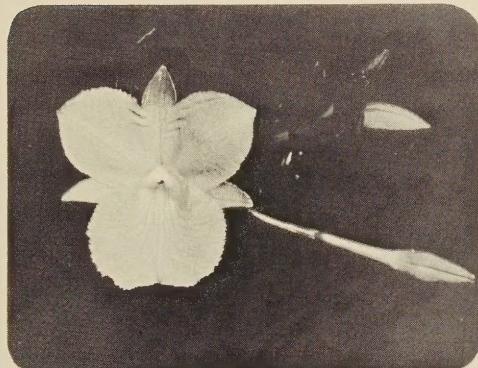

A pure white, small flower. Wonderfully fragrant at night, producing flowers in abundance and blooming several times a year. Spring and summer.

Flowering size,      **\$5.00**

**BRASSAVOLA NODOSA, Selected Variety**

This is definitely a fine strain of *B. nodosa*. The flowers are larger than the type and the foliage is broader. All these plants have been propagated vegetatively from one selected specimen. Flowers profusely. Spring and summer.

**4" — \$15.00**

BRUGHTONIA SANGUINEA

**BRUGHTONIA SANGUINEA**

Jamaica

Small, red, Cattleya-shaped flowers on stem about 12"-18" long. Easy culture.

Flowering size  
**\$10.00**

Mounted on oak log  
**\$15.00**

**C. LABIATA      Brazil**

Good-sized flowers mostly in the darker tints of lavender; light controllable; fall blooming.

Flowering size,      **\$5.00 — \$10.00**

## C. SKINNERI Central America

Clusters of mauve flowers, 3"-4" in diameter, sepals and petals nearly equal.  
Easy culture; prefers an abundance of sunlight. Feb.-March.  
Flowering size, \$5.00

CYCNOCHES CHLOROCHILON

## CYCNOCHES CHLOROCHILON

("Swan Orchid")

Venezuela, Colombia

A beautiful species; fine flowers for corsages and displays. Produces large leaves during summer, then in late fall; flowers are made on the heavy pseudobulbs. Large plants produce as many as 15-20 blooms. Flowers are of a heavy, waxy nature, chartreuse in color and about 5" in diameter.

Flowering sizes, \$5 - \$6 - \$7.50 -  
\$10 - \$15 - \$17.50

## DIACRIUM BICORNUTUM Trinidad

A most interesting plant for a collection. Flowers start opening during February and continue for several months. Star-like flowers of white are lightly spotted with crimson on the lip and are produced on long spikes. We recommend this plant for those who like fragrance in the greenhouse. The perfume of these blossoms is like that of orange blossoms and particularly fragrant in the morning.

Flowering size, \$10.00

## GRAMMATOPHYLLUM MEASURESIANUM Philippines

A very interesting genus which produces long sprays of bright green flowers profusely marked with irregular-shaped spots and blotches of chocolate or purple. Growth is similar to Cymbidium. Spring

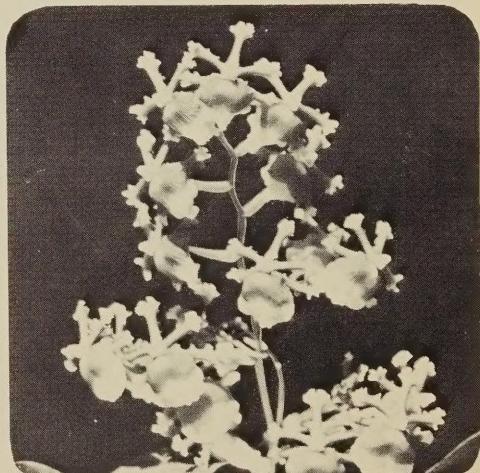

Flowering size, \$25.00

## MILTONIA WARSCEWICZII

Colombia

A choice plant that should be grown in Cattleya - temperature greenhouse. This species can be grown in warm climates. Flowers about 2" across; sepals and petals brown edged and tipped with white, margins wavy; violet lip edged with white, white spot in center of labellum. Rare. Late spring.

Flowering size \$15.00

MILTONIA WARSCEWICZII

## **PERISTERIA ELATA ("Holy Ghost" Orchid) Panama**

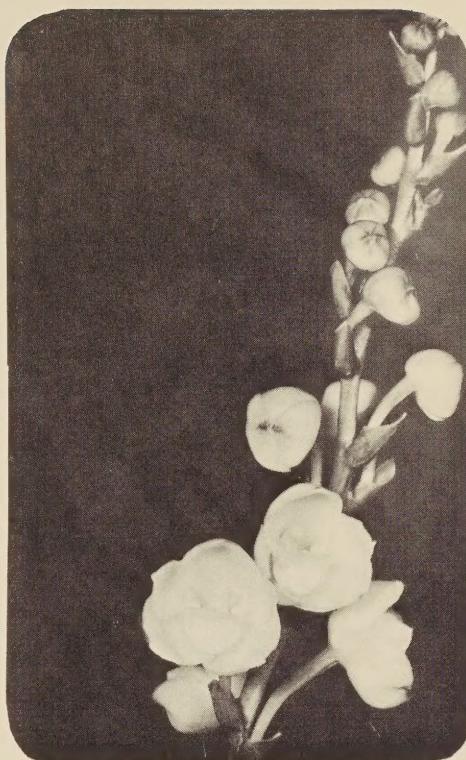

This is a large-growing, terrestrial orchid, preferring a semi-shaded location. It produces white, waxy flowers, the parts of which portray an image of the Holy Ghost—hence its common name. Applications of liquid fertilizers are advantageous during its growing season. Summer and early fall.

Flowering size, **\$10.00 — \$15.00**

## **PHAIUS GRANDIFOLIUS ("Nun's Orchid")**

One of the finest of the terrestrials. Yellow-brown flowers, 3"-4" across, are produced during early spring on tall spikes. Prefers large pot of well-drained compost, fibrous soil and old osmunda fiber. During growing season, applications of liquid fertilizer are beneficial.

Flowering size, **\$7.50 — \$10.00**

**PERISTERIA ELATA**

## **RODRIGUEZIA SECUNDA      Trinidad**

A small plant that adapts itself well to hanging as the scapes are somewhat arching. Flowers during late spring. A most interesting rose-pink color. Easy culture, prefers Cattleya-house temperatures and light.

Flowering sizes, **3" — \$7.50; 4" — \$10.00**

## **SCHOMBURGKIA HUMBOLDTI VAR. ALBA      Colombia**

A rare species from Colombia. These plants have been propagated vegetatively and are of an excellent type. Should be grown in abundant sun. Flowers borne on long sprays. Spring

Flowering size, **\$25.00 — \$50.00**

## **VANILLA PLANIFOLIA      Central America**

This is the plant from which the commercial Vanilla is obtained. It is a vining type and can be trained to climb along the wall or vent shaft. Spring  
15"-18" cuttings, **\$2.00**

Grown on tree fern 5", **\$3.00**

## **OUR COLLECTION INCLUDES**

Angraecums  
Brassavolas  
Brassias

Vanilla

## B R A S S I A S (Spider Orchids)

### BRASSIA ALLENI      Panama

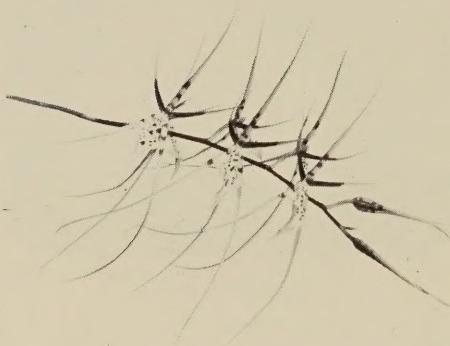

A rare Panamanian species not identified until 1948. The growth of this plant is similar to Huntleya. The plant has no pseudobulbs, but grows in a fan shape. Flowers have a delicious permeating scent of honey.

Flowering size,                    \$15.00

### BRASSIA CAUDATA      Central America

Flower scapes, with 6-10 flowers, are about 18" high. Sepals and petals are narrow, tail-like, the lower sepals about 6" long. Dorsal sepals about 3". Flowers are light green, tinted yellow. Sepals and petals are spotted with dark brown on basal portion. Labellum is brighter yellow than sepals and petals. Summer.

Flowering size,                    \$10.00

BRASSIA GIREOUDIANA

### B R A S S I A G I R E O U D I A N A

Central America

Sepals and petals yellow-green tinted. The two lower sepals about 5" long, dorsal sepals shorter; sepals spotted with brown basally. Petals about 2" long, heavily spotted on basal half. Lip light yellow. Scapes, 15"-24" tall, have about 9 flowers to the stem. Summer.

Flowering size,                    \$10.00

### BRASSIA LONGISSIMA      Central America

One of the choice Brassias. Flowers are golden-yellow, spotted with brown at the base. The lateral sepals are to 10" long. Labellum white and spotted with red-brown. Summer.

Flowering size,                    \$15.00

## SEED — FLASKS — COMMUNITY POTS

From time to time we do have lists of seed, flasks and community pots to offer. If you would be interested in these offerings, please send us a postcard and we will be glad to add your name to our list.

## CATTLEYAS AND ALLIED GENERA

LAVENDER

WHITE WITH COLORED LABELLUM

WHITE

YELLOW

We offer the following crosses as unflowered seedlings. Plants in 3½" pots will flower in about a year, while those offered in 5" pots are in sheath or will make a sheath on the next growth. This is an opportunity to buy outstanding hybrids in large sizes, yet have the pleasure of seeing them flower for the first time.

In some instances we may be sold out of a given size and ask that you designate a second choice or give us permission to substitute a cross of equal quality.

### No. 269 LC. SPRATT MANGUS (Lc. Tegucigalpa x C. Trianaei)

This is a fine hybrid for the Christmas Season. Vigorous grower, produces large flowers of good shape. Medium-dark lavender.

**5" — \$15.00**

### No. 280 BLC. MIAMI (Lc. Dr. Walter Jones x Bc. Hartland)

Medium-dark colored flowers. Well shaped. Winter.

**5" — \$15.00**

### No. 314 BLC. COLLETT EVER-MAN WOOLMAN (Lc. Princess Margaret, Stonehurst x Blc. Ishbel)

Fine-shaped, medium - dark lavender flowers, produced during the winter season.

**5" — \$15.00**

BLC. COLLETT EVERMAN WOOLMAN

### No. 316 BLC. NANETTE x LC. PRES. WILSON, ALBA

Heavy-textured white sepals and petals with colored labellum. A few lavender flowers may appear in the cross, but they will be of good quality. Fall and early winter.

**5" — \$17.50**

### No. 342 LC. JANE DANE x BLC. NANETTE

Fine quality flowers. Sepals and petals are white and the lip will be colored. Some may have only small splash of color on the labellum but few flowers come all white. Early winter.

**5" — \$17.50**

- No. 361 LC. PRINCESS MARGARET, STONEHURST x BLC.  
CLAI'RE AUGUST

Well-shaped flowers always characteristic of Lc. Princess Margaret. Color will tend to be light. Spring.

**5" — \$15.00**

- No. 363 BLC. DAWN ANGELA x C. FRANK BAKER

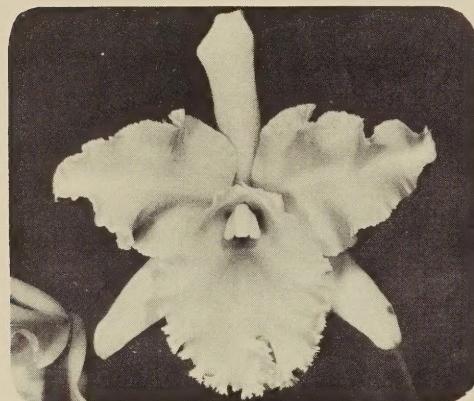

Light, mauve-colored flowers with dark labellum. Winter.

**5" — \$15.00**

- No. 364 LC. NELLA x BLC. CALIGULA

Medium-dark, mauve flowers for winter season.

**5" — \$15.00**

BLC. NANETTE

- No. 365 BLC. NANETTELLA

(Blc. Nanette x C.  
Priscilla, alba)

Heavy-textured flowers of excellent quality. Heavy producers. Fall and early winter.

**5" — \$17.50**

- No. 459 LC. SOUTH ESK, JUDY DOIG, F.C.C., A.O.S. x LC.  
BOADICEA, BRITISH QUEEN

Excellent quality flowers. Medium-dark mauve color. Winter.

**5" — \$15.00**

- No. 460 LC. MALTA x BC. DAWN ANGELA

Heavy-textured flowers, medium-dark mauve color. Mid-winter.

**5" — \$15.00**

- No. 461 C. SOUVENIR DE LOUIS SANDER, THE BRIDE x C. ASTRON

Large, white flowers with yellow throat. Late winter.

**5" — \$15.00**

- No. 462 LC. MOLOCH, F.C.C., A.O.S. x C. ADMIRATION

Medium-dark, mauve flowers. Winter.

**5" — \$15.00**

No. 466 C. SPINDRIFT (C. Ville de Liege x C. Brussels, alba)  
A vigorous grower, producing an abundance of large flowers during the fall season. Flowers are white with colored labellum.

**3½" — \$6.00**

No. 467 BC. MME. BRASSEUR HYE, SUPERLATIVE GOOD x  
LC. JOSEPH HAMPTON

Lc. Joseph Hampton is a fine dark flower and we have great faith in this new hybrid. Some flowers should have flares in the petals.

**2½" — 2.50  
3½" — \$6.00**

No. 469 BLC. CHIEF JOSEPH x C. AMABILIS

This cross was made with the thought that the yellow Blc. Chief Joseph would make a very dark flower. Fall.

**3½" — \$6.00**

No. 471 C. LABIATA, GOOD x LC. CUESTA, SANGUE DE DIOS

This cross should produce some very interesting flowers of dark color. Some may be near magenta or red color. Fall.

**3½" — \$12.50**

No. 473 C. ANNE CLAUDE (C. amabilis, Fine Var. x C. labiata,  
Best Var.)

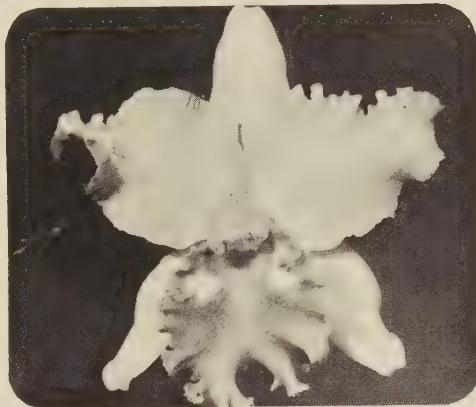

Two excellent strains that will produce fine dark flowers. We believe that the C. labiata used is among the best available today. Fall.

**2½" — 2.50  
3½" — \$6.00**

No. 491 LC.KISMET,ROTUNDA  
x LC. H. G.  
ALEXANDER, F.C.C.

These two outstanding parents should produce some wonderful offspring. Flowers will be well shaped and medium-dark mauve. Some show flowers can be expected. Winter.

**3½" — \$12.50**

LC. H. G. ALEXANDER, F.C.C.

No. 618 LC. MAX PALM x LC. OLIVER LINES

Large flowers of fine shape and heavy substance. Dark lavender. Fall.

**2½" — \$2.50**

No. 565 LC. TEGUCIGALPA x LC. SOUTH ESK, JUDY DOIG,  
F.C.C., A.O.S.

A combination of two proven parents which should produce fine-shaped flowers  
of show quality. Winter.

**2½" — \$2.50**

No. 619 LC. SOUTH ESK,  
ROUTON'S VAR. x  
LC. DERRYNANE, SU-  
PERBA

Large flowers of fine shape.  
Medium-dark mauve. Fall and  
early winter.

**2½" — \$2.50**

LC. SOUTH ESK, JUDY DOIG, F.C.C.,  
A.O.S., 1951

No. 623 LC. KATHLEEN GREY  
x LC. HENRIETTA J.  
DANE

Large, yellow flowers with red labellum. Summer.

**2½" — \$5.00**

## 2" SEEDLINGS

The following hybrids are established in 2" pots and are making the initial growth from the seedlings leaves. This is a wonderful opportunity to obtain excellent stock at the very low price of—

**ONE DOLLAR EACH**

C. TELA

No. 633 LC. GEORGE MAC DONELL x (C. HARRISONIAE x  
C. FABIA)

We expect small, dark flowers of heavy substance. Early winter.

No. 523 C. ENID, METEOR  
x C. OLD FORESTER

Fine, medium-dark flowers;  
probably will flower more  
than once a year. Fall and  
winter.

No. 629 C. TELA x LC. SOUTH  
ESK, JUDY DOIG,  
F.C.C., A.O.S.

These two exhibition - type  
flowers should produce some  
fine flowers of medium-dark  
mauve color for early winter  
blooming.

- No. 634 LC. CHARLESWORTHI x LC. AUTUMN YELLOW  
Small flowers in various shades of orange to yellow. Spring and summer.
- No. 635 C. CLARIS x C. HELEN P. DANE  
Fine, large white flowers with yellow throat. Winter.
- No. 636 LC. GEORGE MAC DONELL x LC. CHARLESWORTHI  
Small, dark flowers. Winter.
- No. 643 LC. TEGUCIGALPA x C. REMY CHOLET, PIERRE CHOLET  
Large, dark flowers. Winter.
- No. 658 BLC. ANTOINETTE No. 373 x C. MINUCIA,  
MAGNIFICA No. 931  
Medium-size, lavender flowers. Fall.
- No. 697 (BLC. YELLOW HAMMER x C. WHITE EMPRESS) x  
BLC. GOLDEN MYTH  
Expect yellow flowers of medium size, some may be lavender and others all yellow. Winter.
- No. 796 C. CELIA x C. CLARIS  
Medium-size white of excellent shape and heavy substance.
- No. 797 LC. TITYMOMA, SUPREME x LC. PRINCESS WOODSTAR,  
RED FLARE, A.M.  
Dark flowers of excellent quality. Fine opportunity for show-type flowers. Winter.

**SPECIAL OFFER**

**2" SEEDLINGS**

One each of eleven crosses of Cattleyas and Allied Genera.

Our selection

**\$9.95**

This exceptional offer is possible only because we have insufficient quantity of the individual crosses to advertise them by parentage.

## SPECIAL OFFERS

### 2½" SEEDLINGS

#### CATTLEYAS AND ALLIED GENERA

5 Plants—our selection, one plant of a cross—

**\$10.00**

10 Plants—our selection, not more than two plants of a cross—

**\$19.50**

### 5" SEEDLINGS

No. 269 LC. SPRATT MANGUS

No. 370 C. JOYCE HANNINGTON, PERFECTION x  
BLC. NANETTE

No. 337 BLC. DAWN ANGELA x C. MENDELISSIMA

No. 338 BLC. WAGNETTE

One each of the above unflowered seedlings in sheath

**\$49.50**

### YELLOW HYBRIDS

From time to time we have divisions of YELLOW-FLOWERING Cattleya hybrids of known quality. If you are interested, we will be glad to send you information on the plants which are available.

# CATTLEYAS AND ALLIED GENERA

## Flowering size plants

Our orchid collection consists of a large variety of hybrids too numerous to mention. However, we are listing a few of our fine hybrids and have selected those which represent a wide range of types as well as colors. If there is a particular hybrid you are interested in obtaining, please write us; if we do not have it, perhaps we can help you secure it.

Plants differ in size, although pot sizes may be the same, and quality of course, is also a factor; therefore, we have indicated a fair spread in price for evaluation of size and quality. All these plants are divisions of our flowering plants.

### WHITE

- No. 19 C. NELL MONTGOMERY (C. Gaskelliana, alba x  
C. Ben Nevis)

A fine winter producer; plant "breaks" very freely, so fine specimen plants are possible in small pots. Flowers are white with yellow throats.

**\$10 — \$20**

- No. 80 C. CLARIS (Syn. C. St. Petersburg)

Excellent free-flowering white with yellow throat. Often flowering several times a year.

**\$25.00**

- No. 111 C. FLORENCE PATTERSON (C. Rita Sladden x  
C. Clementine Goldfarb)

This is one of the large, white-flowering orchids for late winter and early spring. Good producer and strong grower.

**\$20 — \$35**

- No. 123 C. MARION DAVIES (C. Edithiae x C. Gravesiana, alba)

A good producer of white flowers for winter.

**\$15.00**

### WHITE WITH COLORED LABELLUM

- No. 3 LC. BRITALWYN (Lc. Britannia, Blanchette x C. Alwynii,  
No. 1)

Fine white with colored labellum to flower in mid-summer.

**\$20.00**

No. 4 LC. BRITANSUN (Lc. Britannia, alba x Lc. Sunburst)

Hybrid between a white and yellow. The offspring are medium-sized white flowers with color in the ends of the petals as well as colored labellum. Summer.

\$20.00

No. 45 C. MAUREEN ORCUTT (C. Lady Alexander, alba x  
C. Royal Harold, alba)

A nice white with colored lip to flower during the fall season. Plant is compact and short growing, yet is a good producer.

\$20.00 up

No. 59 C. ENID ALBA (C. Mossiae, Reineckiana x C. gigas, F.M.B.)

Exceptionally floriferous. Beautiful, large orchids with white sepals and petals and mottled purple lip. A "must" for any collection. Excellent grower. Winter.

\$15 — \$25

No. 71 LC. LOUELLA PARSONS (C. gigas, F.M.B. x Lc. Jane Dane)

Fine, free-flowering white with mottled colored labellum. Most flower in June but often bloom again in the fall.

\$20 — \$25

No. 112 LC. JAY MARKELL

(Lc. Cynthia, F.C.C.,  
R.H.S. x C. May  
Markell)

A fine hybrid; white sepals and petals with dark labellum. One of the best of the whites with colored lips. Winter.

\$25 — \$40

LC. JAY MARKELL VAR. SAM SHARPE,  
A.M.A.O.S., 1953

No. 114 LC. MARIE WEBB (C. Nutley, alba x Lc. Mab)

A large, fall-flowering white with colored labellum; beautiful gold-veined throat with dark markings on the tip of the labellum.

\$20 — \$35

No. 137 BC. MARTHE

GRATIOT x  
LC. PENSHURST

Large, cream to chartreuse-colored, Brasso-type flowers of heavy substance; plants produce 2-3 flowers per lead. Vigorous grower; large plants. Fall and winter.

\$25 — \$30

BC. MARTHE GRATIOT x LC. PENSHURST

No. 184 BLC. DOROTHY JONES (Blc. Nanette x

C. White Empress, F.C.C.)

A Nanette cross which has proven to be a fine hybrid for fall and early winter blooming. We have many fine forms all the way from pure whites to whites with colored lips. August to December.

\$25.00 up

No. 312 C. BARBARA DANE x BLC. NANETTE

This cross has produced some of the finest whites with colored lips that we have for fall flowering. The color patterns and all of the lips seem to be different. September - December.

\$25.00 up

C. MARGARET VICTORIA

No. 313 C. MARGARET

VICTORIA (C. Raphaelaurea x C. gigas, F.M.B.)

A fine white flower with colored labellum. Yellow eyes in the throat of the labellum add greatly to the beauty of the flower. Fall and early winter.

\$20 — \$30

No. 315 LC. CLARA SCHREIVER (C. Raphaelaurea x Lc. Jane Dane)

An outstanding flower of good substance; white sepals and petals stand out against the bright-colored throat and colored labellum. Fall and early winter.

\$25.00

No. 322 C. ALICE PEARCE (C. Mossiae, Reineckiana, Young's x  
C. Princess Royal, alba)

White sepals and petals with Mossiae-type, mottled labellum. Late winter and early spring. Good producer.

\$20.00

No. 323 C. ALESIA (C. Dionysius x C. Mossiae, Reineckiana)

Very similar to cross No. 322, but flowers in February and March.

\$20.00

No. 324 C. CATHERINE PATTERSON (C. Enid, Best x  
C. Mrs. F. Knollys)

White sepals and petals, while the labellum has a more solid pattern than the previous Mossiae hybrids. January and February.

\$20.00

No. 342 LC. JANE DANE x BLC. NANETTE

Fine flowers of heavy texture with white sepals and petals, solid, reddish-lavender-colored labellum. Excellent quality. December - January - February.

\$25.00 up

No. 346 LC. JANE FROMAN (C. Alwynii, Jane Froman x  
Lc. Hassalli, Cowan's F.C.C.)

A fine, free-flowering plant. December - January - February.

\$20.00

**LAVENDER**

LC. SARGON (Lc. Lustre x C. Hardyana)

A very fine, floriferous Cattleya. Habit of growth is similar to C. gigas in that it requires good light for best flowering. Dark labellum. May - June.

\$20.00

C. MARIAN FAIRCHILD

No. 27 C. MARIAN FAIRCHILD

(C. Eleanore x C.  
Loddigesii, violacea)

A fine, bifoliate Cattleya. Flowers borne on heavy stems, have beautiful dark lips. We have had as many as 14 flowers to the stem. We are offering a few divisions of this hybrid. (See cover photo, June 1953 issue A.O.S. Belletin) Spring, summer and fall.

\$25.00

No. 31 C. DAVID FAIRCHILD (C. Dupreana x C. Loddigesii, violacea)

A lovely, bifoliate Cattleya; excellent producer and vigorous grower. Spring, summer and early winter; generally flowers twice a year.

\$25.00

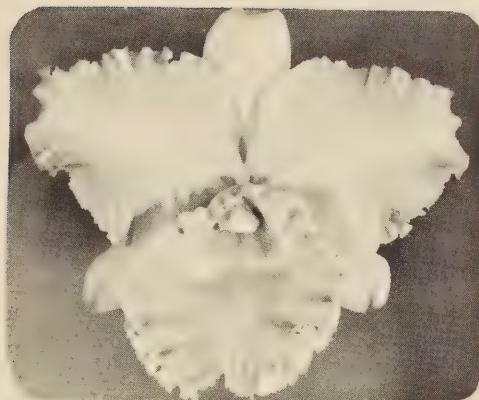

No. 34 LC. TRIGLAV  
(C. Titrianaei x  
Lc. Windermere,  
Clovely, A.M.)

A medium-size, dark flower of  
fine substance. Free flower-  
ing, compact and well shaped.  
Winter and early spring.

**\$20.00**

LC. TRIGLAV

C. OLD FORESTER

No. 43 C. OLD FORESTER (C.  
Charybdis x C. Enid)

A heavy-textured flower of  
good form and heavy sub-  
stance. Flowers are large and  
vary from light lavender to  
medium-dark mauve. One of  
the lovely new hybrids. Pre-  
fers strong light for best flow-  
ering. Spring.

**\$25 — \$40**

No. 74 LC. ALMA ISHIZAKI (Lc. Areca, Model F.C.C. x Lc Hertha)  
A wonderful large, dark flower, characteristic of its parents. Good shape and  
good producer. Fall and early winter.

**\$35.00 up**

No. 75 LC. FRANCES LIBERACE (Lc. Areca, Model F.C.C. x  
Lc. Princess Margaret)

A Princess Margaret hybrid of outstanding quality; flowers are dark and well  
shaped; often flowers twice a year; vigorous grower. Fall and winter.

**\$50.00 up**

No. 76 LC. WALTER WINCHELL (C. Tappan x Lc. Dupresan)  
Well-shaped dark flower with beautifully-colored yellow throat; fine producer.  
Fall and winter.

**\$25.00 up**

No. 113 LC. IMPERIAL SUGAR (Lc. Hillary, F.C.C., R.H.S. x  
C. Mt. Royal)

Floriferous and a good grower. Medium-dark, lavender flowers for winter to  
spring.

**\$25.00**

No. 135 BLC. MARION RYERSON (Lc. Linnaeus T. Savage x  
Bc. Hartland)

One of the modern hybrids of Bc. Hartland, which is proving to be a fine new parent. Flowers are dark and of heavy substance. In our climate we flower most of these plants twice a year. Fall-winter. (See photo on cover).

**\$25 — \$50**

No. 177 C. FABIA x LC. MAX PALM

Large, dark flowers for August and September flowering.

**\$20.00**

No. 180 BLC. BISCAYNE BAY (Bc. David Adams x Lc. Hertha, F.C.C.)

A new hybrid of recent introduction; outstanding for its dark, well-shaped flowers. Winter.

**\$25.00 up**

No. 187 BLC. HOLLYWOOD (Lc. Mrs. Hanmer x Bc. David Adams)

A fine, dark flower of heavy substance and wonderful texture. Winter.

**\$25.00 up**

LC. ROBERT DOIG

No. 199 LC. ROBERT DOIG

(C. Belgica, Robert Doig x Lc. Titymoma, supreme)

This is a fine hybrid for the grower who prefers medium-sized flowers of fine shape. A wonderful producer and a vigorous grower, small plants often producing 10-12 flowers at a time. Winter.

**\$20 up**

No. 269 LC. SPRATT MANGUS (Lc. Tegucigalpa x C. Trianaei)

A nicely-shaped flower of mauve color for the Christmas and New Year's season.

**\$17.50 up**

No. 280 BLC. MIAMI (Lc. Dr. Walter Jones x Bc Hartland)

Dark, winter-flowering hybrid of good substance. Large flowers.

**\$20.00**

- No. 314 BLC. COLLETT EVERMAN WOOLMAN  
(Lc. Princess Margaret, Stonehurst x Blc. Ishbel)  
The color has varied from light to very dark, but all flowers have been exceedingly fine. Flowers are large, of good substance and have a large, dark labellum. Winter. (See photo page 7).

\$20.00

- No. 317 BLC. DAWN ANGELA x C. TRIANAEI, A. C. BURRAGE  
Large, light lavender flowers with dark labellum. January - February - March.

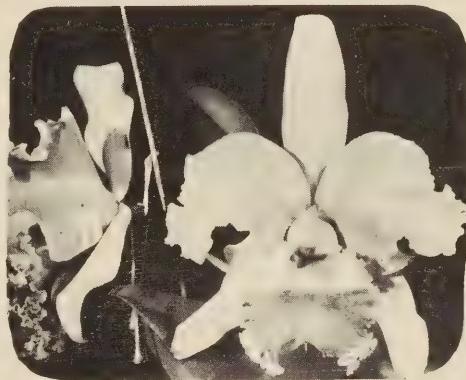

\$20.00

- No. 332 LC. GEORGE  
BALDWIN

(Lc. Princess Margaret  
x C. Enid, Orchid-  
haven)

One of the choice, well-known hybrids, often flowering twice a year. Large, dark flowers. June - July and again December - January.

\$25.00 up

LC. GEORGE BALDWIN

- No. 337 BLC. MEM. ROGER SHERMAN (Blc. Dawn Angela x  
C. Mendelissima)

Light lavender-colored hybrid, flowering during spring and summer months. Large flowers.

\$20.00

- No. 340 LC. PRINCESS MARGARET, BONYCREST x LC. MIRANDA  
Large, fine-shaped flowers. Flowering season is predominantly summer.

\$20.00

- No. 605 POTINARA NEGRITA (Blc. Negresco, ardens x Slc. Ramona,  
orangina)

A small-sized flower with tremendous color variation. (A Potinara is a hybrid made up of Brasso, Laelia, Cattleya and Sophronitis). Winter.

\$25.00 up

## C Y P R I P E D I U M S

The Cypripedium ("Lady Slipper Orchids") are easy to grow. Their magnificent flowers of brown, rose, green and red colors will last several months in perfection.

Cypripediums offered here prefer a temperature of 60° F. or more. They do not like strong light and will do better if given a shaded location with 800 - 1200 ft. candle light. They can be grown well in conjunction with Phalaenopsis.

Cypripediums like plenty of humidity and are benefited by light syringings of water overhead. Applications of bonemeal and lime are advantageous. Plants may be divided and repotted after they flower.

### CYP. ASHBURTONIAE VAR. SUPERBA (Cyp. barbatum x Cyp. insigne)

A brown Cypripedium; flowers are borne on long stems, a nice plant to flower in fall.

Flowering size,                   **\$15.00**

### CYP. HARRISIANUM (Cyp. barbatum x Cyp. villosum)

Brown-colored Cypripedium, flowering during winter.

Flowering size,                   **\$10.00**

### CYP. INSIGNE VAR. SANDERI      Species Annam

Honey-yellow in color. Dorsal-sepal white margined with a few minute brown spots at the base.

Flowering size,                   **\$7.50**

CYP. MAUDIAE var. MAGNIFICUM

### CYP. MAUDIAE VAR.

MAGNIFICUM (Cyp. callosum, Sanderae x Cyp. Lawrenceanum, Hyeanum)

This is, perhaps one of the favorites in the entire group of Cypripediums. A beautiful shade of light green. The dorsal sepal is white with light green lines. Flowers during various seasons of the year.  
Flowering size,                   **\$15.00**

### CYP. NEREID (Cyp. Alma Gevaert x Cyp. callosum)

Another fine green Cypripedium flowering during the winter season. A good green for St. Patrick's Day.

**Flowering size, \$15.00**

## CYP. AUROBE (Cyp. aureum, O'Edippe x Cyp. Niobe)

A fine productive hybrid that flowers during the Christmas season in the Miami area—further north often grown to flower for Valentine's Day. White dorsal, mahogany petals and pouch.

**Flowering size, \$17.50**

## CYP. AUREUM VAR. SURPRISE (*Cyp. nitens* x *Cyp. Spicerianum*)

A yellow and white hybrid for the Easter Season in cool climates. In the Miami area, this Cyp. flowers during January and February.

**Flowering size, \$17.50**

CYP. EMERALD (*Cyp. Curtissii*, *Sanderae* x *Cyp. Maudiae*)

Finely-mottled leaf; green and white flowers.  
Flowering size, \$17.50

CYP. ALMA GEVAERT (*Cyp. Lawrenceanum*, *Hyeanum* x *Cyp. Maudiae*)

A nice form of green and white; distinct shape from *Maudiae*.

**Flowering size, \$17.50**

#### A PLANT A MONTH

For those who are interested in a continuity of flowers in orchid plants throughout the year, we suggest that you order a plant or two from us each month. By so doing, you will be assured of continuous flowering in your collection.

We have not only Cattleya plants available, but also many of the spray-type orchids, and offer you our services in selecting hybrids or species which will be suitable for your growing conditions.

## D E N D R O B I U M S

This genus contains some of the finest of the spray orchids. They are of easy culture, although one must be aware of the particular requirements of each species in order to be successful in flowering them.

Dendrobium phalaenopsis and all of its varieties should be grown in the Cattleya house and given as much sun as possible without burning the foliage. Give the plants plenty of water when they are growing. When not in growth, withhold some of the water and give only enough to keep the plants from shriveling. Weak application of liquid fertilizer are advantageous when the plants are in growth.

### D. PHALAENOPSIS VAR. DELIGHTFUL

Flowers are very light; background white with less intense coloring than the variety "delicata". September - January.

Flowering size,      \$15.00

### D. PHALAENOPSIS VAR. DELICATA

An evergreen type of Dendrobium. Flowers are produced on sprays from the terminal end of the long canes. Background white with lavender to purple suffusion on sepals and petals. September - January.

Flowering size,      \$15.00

### D. PHALAENOPSIS VAR. SCHROEDERIANUM

(Dixon's variety)

The finest variety of colored Dendrobium Phalaenopsis we have ever seen. Extremely dark flowers; in some cases the sepals are tipped with white, making a beautiful contrast. Canes grow to 8 feet in height and produce sprays of over 20 flowers, lasting for weeks. Our stud plant has produced as many as 10 sprays of flowers in a season. An excellent plant for use as decoration or cut flowers. September - January. Flowering size, \$15.00

D. PHALAENOPSIS, SCHROEDERIANUM,  
DIXON'S VARIETY

### D. LOUIS BLERIOT (D. superbiens, Goldei x D. phalaenopsis)

This year we are able to offer plants of this fine, dark, selected variety.

Flowering size,      \$15.00

## DENDROBIUM PHALAENOPSIS SEEDLINGS

No. 613 D. PHALAENOPSIS DELICATA, "MY FAVORITE" x  
(D. PHALAENOPSIS x D. BIGGIBUM),  
ORCHIDWOOD

Medium-dark, well-shaped flowers.

2"- \$1.00

No. 615 D. PHALAENOPSIS, DELICATA, "MY FAVORITE" x  
D. PHALAENOPSIS, DELICATA

Light pink to lavender-colored flowers.

2"- \$1.00

No. 683 D. PHALAENOPSIS, DIXON'S VARIETY F<sub>6</sub> X SELF

Very dark flowers.

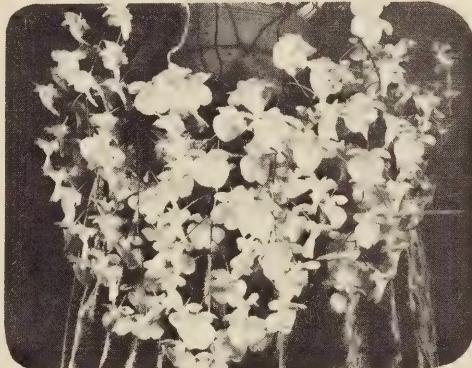

2"- \$1.00

## D. AGGREGATUM VAR. MAJUS

The bright yellow flowers of this little Dendrobium are most welcome in any greenhouse during the spring months. It is a small plant—pseudobulbs are 3"-5" long and the leaves are about the same size. The profuseness of blooms dwarfs the plants when they are in flower.

3"- \$ 7.50

4"- \$10.00

D. AGGREGATUM

## D. SUPERBUM DEAREI x SELF (No. 571)

A lovely, white-flowering Dendrobium with pendulous canes. Flowers appear in the spring on canes made the previous summer. Fragrant.

4"- \$7.50

## *Free Literature* ON DENDROBIUM CULTURE

"Dendrobium Phalaenopsis," by Robert M. Scully.

Published in the A.O.S. Bulletin, Vol. 21,  
No. 11, 1952. Write Jones and Scully, Inc.  
for reprints.

## DISTINCTIVE MODERN DENDROBIUMS

Some of you may not be familiar with the new group of Dendrobiums which is becoming so popular. They are fine, strong-growing plants whose flowers last in perfection for several months. The majority of these bloom during the winter season, while others will flower throughout the year. To appreciate the merits of these Dendrobiums, you must grow some of them. During warm seasons, they can be grown outdoors in full sun.

The following crosses are all grown in 4" pots and priced at—

**\$7.50 each**

### No. 702 D. PRINCE AKIHITO (D. May Neal x D. Gouldi, Blue)

This is a most vigorous hybrid using the fine blue form of D. Gouldi. Flowers will be abundant—yellow to red-bronze with darker tips.

### No. 703 D. ETHEL KAWAMOTO, A.M.H.O.S. x D. HULA GIRL

This is a hybrid of fine parentage; flowers will be of yellow to bronze-colored combinations.

### No. 704 D. JOAN TANI x D. HAWAII NUI

Flowers of intense lavender on long sprays.

### No. 705 D. GRACE GOO x D. GOULDI, BLUE

Flowers will be dark lavender to yellow-bronze.

### No. 706 D. OWENS (yellow) x D. GOULDI

Flowers may vary from yellow to blue.

### No. 707 D. ETHEL KAWAMOTO, A.M.H.O.S. x D. GOULDI

Deep yellow with chocolate-colored tips.

### No. 708 D. UNDULATUM x D. GOULDI, BLUE

Flowers will range from dark purple to bronze colors.

### No. 709 D. GERALDINE GOO (D. Janice Tanaka x D. Gouldi, Blue)

We expect a color range from dark yellow to bronze.

### No. 710 D. ETHEL KAWAMOTO, A.M.H.O.S. x D. GOULDI, BLUE

Flowers will be greenish-yellow with dark tips.

LC. GEO. LEWIS, ORCHIDGLADE,  
A.M.A.O.S., 1954

## EXHIBITION PLANTS

If you are interested in exhibition plants—many of which have received awards—we will be glad to send you a list of the divisions which are available.

### WATCH OUR ADVERTISEMENTS IN THE **American Orchid Society BULLETIN**

We will have new hybrids to offer throughout the year at Special Prices.

We grow so many fine plants of so many different genera that we could not possibly list them all. We invite your correspondence when you have something particular in mind, for we feel sure that we can help you with your needs and on any growing problems you may have.

### OUR COLLECTION INCLUDES

Angraecums  
Brassavolas  
Brassias  
Broughtonias  
Cattleyas  
Cynoches  
Cypripediums

Dendrobiums  
Diacriums  
Epidendrums  
Grammatophyllums  
Laelias  
Miltonias  
Oncidiuns

Peristerias  
Phaius  
Phalaenopsis  
Rodriguezias  
Schomburgkias  
Vandas  
Vanilla

# E P I D E N D R U M S

## EPIDENDRUM

### ATROPURPUREUM

Panama

Flowers are larger than the type. Sepals and petals brown with lighter borders; lip, reddish-mauve. April.

Flowering size,

**\$10 — \$15**

EPIDENDRUM ATROPURPUREUM

### EPIDENDRUM CILIARE

Tropical America

Plant growth is similar to bifoliate Cattleyas. Flowers are borne on apex of growths. Sepals and petals are greenish-yellow with large frilled, ciliated labelum. Early winter.

Flowering size plant

**\$7.50 — \$10.00**

### EPIDENDRUM MARIAE

Mexico

This may well be termed an outstanding and little-known species. The flower has a beautiful, clear white lip, pale green toward the base. Sepals and petals are yellowish-green. Summer.

Flowering size 4",

**\$7.50**

EPIDENDRUM MARIAE

### EPIDENDRUM RADICANS

Central America

This is a reed-type Epidendrum that wants an abundance of sunlight to produce its heads of brilliant, orange-red flowers. Can be trained against a wall and grown outdoors in full sun during the warm season. Remains in flower for months at a time. Spring.

Flowering size 3", 15"-18" tall, **\$1.50**

### EPIDENDRUM HYBRID, YELLOW

Grown the same as above. Flowers are a beautiful yellow color. Spring.  
Flowering size, **\$2.00**

### EPIDENDRUM RADIATUM

Mexico

Compact growing plant, about 10"-12" tall. Flowers are light yellow with colored lines radiating from the base of the labelum. Flowers very fragrant. Spring.  
Flowering size, **\$10.00**

## **EPIDENDRUM STAMFORDIANUM      Central America**

A bifoliate-type Epidendrum similar to Epidendrum ciliare in growth. Flower spikes appear at the base of the bulbs in long sprays of greenish-yellow flowers, with dark-colored spots. Season, spring.

Flowering size,                            **\$7.50 — \$10.00**

## **EPICATTLEYA RADIATO-BOWRINGIANA (C. Bowringiana x E. radiatum)**

We have flowered several plants of this cross and call them our "Little Plums" as the lovely plum color is most attractive. The size of the flowers is about twice the size of E. radiatum. Spring.

Flowering size, 3½",                            **\$10.00**

## **EPIPHRONITIS VEITCHI (E. radicans x S. grandiflora)**

A hybrid of an Epidendrum crossed with a Sophronitis. The plant growth is similar to Epidendrum, yet the flowers are larger and more brilliantly colored. Flowers several times a year.

Flowering size, on tree fern 4",                    **\$7.50**

## **MORE THAN MEETS THE EYE**

The experienced orchid grower knows that one cannot judge the potential quality of an orchid plant by its appearance. The physical appearance of the plant indicates only whether the plant is in good condition, but does not reveal the many hours of thought and the years of care which have been involved to produce quality flowers.

It is necessary, therefore, that you place full faith in the grower from whom you purchase your plants. This is why year after year, our customers call on us again and again to supply their needs. All of our experience is at your service and we hope you will join the ranks of our many satisfied customers.

## **FOLIAGE PLANTS**

We are growers of Tropical Foliage plants as well as Orchids.

If you are interested in Tropical Foliage plants for indoor culture, we invite your correspondence.

# ONCIDIUMS

## **ONCIDIUM AMPLIATUM VAR. MAJUS      Panama**

Many-flowering arching, branched scapes from 2-4 feet long. Canary-yellow "dancing girls, 1½" in diameter. Sepals blotched with red-brown. One of the finest of the Oncidiums. Spring.

Flowering size,      **\$10 — \$12.50 — \$15**

## **ONCIDIUM ANSIFERUM      Costa Rica**

A very interesting plant having unusual type of growth. Flowers borne on branched stem and loosely arranged. Very graceful. Spring.

Flowering size,      **\$12.50**

## **ONCIDIUM CARTHAGINENSE      Tropical America**

Very decorative green foliage with maroon spots, similar to that of *Onc. lanceanum*, is typical of this species. Flowers come on 2-3 feet sprays and are of a delicate pinkish-lavender color. Late spring.

Flowering size,      **\$10.00**

## **ONCIDIUM CAVENDISHIANUM      Mexico**

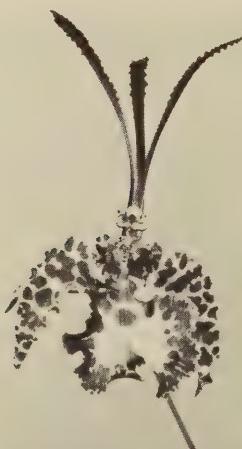

Heavy foliage with upright-growing stem of yellow flowers. Winter.

Flowering size,      **\$12.50**

## **ONCIDIUM CEBOLLETA      Central America**

This is a terete-type *Oncidium*; small, brilliant yellow flowers, maroon-spotted on the back. Spring.

Flowering size 3",      **\$5.00**

**ONCIDIUM KRAMERIANUM**

## **ONCIDIUM LANCEANUM**

**from seed**

One of the finest species of the genus. Leaves large, light green and peppered with dark dots. Flowers chartreuse spotted with chocolate-brown. Heavy textured and will last for a month. Summer.

**3½" — \$5.00**

**5" — \$15 — \$20**

**ONCIDIUM LANCEANUM**

## ONCIDIUM LURIDUM Cuban species

As many as 50-100 flowers of 1" diameter, borne on long spikes in yellow to honey-brown color. Spring.  
Flowering size, \$10.00

## ONCIDIUM MICROCHILUM Guatemala

Beautiful dark green foliage, upright growing to 12" tall. Sprays of flowers are yellow and brown. Summer.  
Flowering size, \$12.50

## ONCIDIUM PIGRUAENI

Trinidad

A dwarf species only a few inches high bears flowering stems about 10" long. Brilliant yellow flowers. Flowers several times a year.

2½" — \$3.00

ONCIDIUM PIGRUAENI

## ONCIDIUM SPHACELATUM Guatemala

Small, yellow flowers on long racemes; one plant will produce several hundred flowers. Easy culture and ideal to grow outdoors in warm climate. Usually in flower for Mother's Day.  
Flowering size, \$7.50

## ONCIDIUM SPLENDIDUM Central America

This Oncidium produces the "Dancing Girls". Lovely yellow flowers of good size.  
February and March. 3" — \$5.00

## ONCIDIUM TETRAPETALUM Jamaica

A dwarf growing species. The plant itself is not over 3"-4" tall. Flowers are of the palest lavender color, borne on stems about 15" long. Flowers several times a year.  
2½" — \$3.00

## ONCIDIUM UNIFLORUM

Brazil

A small-growing species to about 8" tall. Forms a compact-type plant; excellent as a small pot plant. Flowers yellow on stems about 10" tall, borne singly on stem. Fragrant. Early summer.

3" — \$7.50

ONCIDIUM UNIFLORUM

## ONCIDIUM TIGRINUM Mexico

A fine species from Mexico. Flowers are yellow with brown markings. Early winter.  
Flowering size, \$7.50 — \$10.00

## PHALAEOPSIS

SHOWER OF PHALAEOPSIS  
AT ORCHIDGLADE,  
FEBRUARY, 1953

The parents of these hybrid seedlings were carefully selected for color, shape, size, substance and flowering habits to produce superior offspring.

No. 630 P. VENUSTUS x P. SPRINGTIME

Large, white flowers. Excellent shape.

**2½" — \$2.50**

No. 698 P. BOBBY BOY x P. SPRINGTIME

A fine large white. Heavy substance.

**2½" — \$2.50**

No. 748 P. DORIS VAR. PINK CLOUD x (P. DORIS x P. ELINOR)

Large, light pink flowers of excellent shape.

**2½" — \$4.00**

No. 749 P. SNOW WHITE x P. CHIEFTAIN

Large, white flowers of excellent form.

**2½" — \$2.50**

## VANDAS

Vandas have taken a major place in the orchid world just in the past few years, and when you become acquainted with their merits you, too, will want to include them in your orchid collection.

We have found the best potting medium to be charcoal. The plants should be potted in larger pots than you would normally pot other orchids of similar size. They must be fed often, especially if soluble fertilizer is used.

We can ship Vandas to you bare root for potting on arrival—or, we will ship in pots if you instruct us to do so.

It is difficult to price Vandas according to pot size as we do with Cattleya hybrids, so we have indicated the price range according to plant size and have specified the pot size where possible.

**No. 275 V. SHARLYN WONG (V. tricolor, Broadview x V. Mem. T. Iwasaki)**

A fragrant, free-flowering Vanda. Flowers are a definite improvement in size as well as in color over both parents and have heavy substance. Color is rich, butter-yellow with brown markings. Large plants in 10" pots about 3" tall.

**\$17.50 — \$25.00**

**No. 356 V. WALTER FUJIKAMA (V. Manila x V. coerulea)**

A fine-shaped flower of excellent blue color.

**\$7.50 — \$10.00**

Flowering size,

**\$25.00 up**

RENANTANDA JACK WARNE

**No. 357 RENANTANDA  
JACK WARNE  
(Ren. Storiei x  
V. Sanderiana)**

A tall-growing type with large stems of orange-red flowers borne on erect stems. Very striking.

Plants 8" tall 12" spread,  
**\$12.50**

13" - 18" tall, 12" - 15" spread  
**\$35.00**

Larger plants priced accordingly.

- No. 377 V. ONOMEA  
 No. 503 (V. Sanderiana x  
           V. Rothschildiana)

One of the best Vandas. Color varies from mauve to blue and flowers have excellent shape.

**\$15 — \$25 — \$40 up**

VANDA ONOMEA

- No. 378 V. PROFUSION  
 No. 506 (V. suavis x  
           V. Rothschildiana)

Called "Profusion" because of its free-flowering habit. White to light blue background. Spotted.

**\$7.50 — \$10.00**

Flowering size,

**\$15.00**

VANDA HONOLI

- No. 428 V. DENISONIANA, HEBRIACA x V. SANDERIANA

Flowers are of a combination of brown colors and, in some cases, have a spot of pink on the sepal.

**\$5.00 — \$10.00**

Flowering size,

**\$15.00 up**

- No. 429 V. CHIMEY WALKER (V. Flammerolle x V. Sanderiana)

Flat flower of fine form. Color varies from pink to salmon and raspberry.

**\$7.50 — \$10.00**

Flowering size,

**\$25.00 up**

- No. 484 V. FRANKENSTEINIANA (V. Herziana x V. coerulea)

A free-flowering hybrid with blue to grey-blue flowers of the Herziana type; very desirable.

**\$5.00 — \$7.50**

No. 493 V. LUZONICA

(from seed).

White, heavy flower with flushed magenta-purple markings and purple lip. Species from Luzon, Philippines.

**\$5.00 — \$10.00**

Flowering size

**\$15.00**

VANDA LUZONICA

No. 496 V. BOSCHI x V. DEAREI

Cream-colored flowers with heavier yellow marking toward the center of the flower. Medium size and of very heavy substance.  
Flowering size,

**\$15.00 — \$25.00**

No. 501 V. MANILA (V. Luzonica x V. Sanderiana)

One of the favorite hybrids producing pink-colored flowers.

**\$7.50 — \$10.00**

Flowering size,

**\$25.00**

No. 516 V. KALALAU (V. Paki x V. Ellen Noa)

This is a small-type Vanda; light yellow flower, beautifully spotted with maroon; usually 5-6 flowers to the stem.

**\$5.00 — \$10.00**

Flowering size,

**\$15.00**

No. 518 V. BILL SUTTON (V. Sanderiana x V. Manila)

No. 354

Fine-shaped flower in deep pink; similar to V. Sanderiana.

**\$7.50 — \$10.00 — \$15.00**

Flowering size,

**\$25.00**

No. 519 V. KILOHANA (V. Manila x V. Rothschildiana)

Flowers will vary from deep pink to blue.

**\$5.00 — \$7.50 — \$10.00**

No. 545 V. OHUOHU (V. Clara Shipman Fisher x V. Sanderiana)

One of the best of the new hybrids. Colors mostly in shades of pink and brown.  
Unflowered,

**\$15.00 up**

Flowered

**\$40.00 up**

No. 546 V. HONOLULU (V. Frank Scudder x V. Sanderiana)

A well-shaped flower of excellent size. Color variable.

**\$7.50 — \$10.00**

No. 547 V. EARNEST FUJINAGA (V. Caroline Robinson x V. Sanderiana)

An excellent producer with a very wide range of color combinations, yellow and green predominating.

**\$5.00 — \$7.50**

Flowering size,

**\$15.00 — \$40.00**

No. 548 V. OHUOHU x V. ROTHSCHILDIANA

Excellent-shaped, large flowers; color will vary from pink to blue.

**\$7.50**

Flowering size,

**\$25.00**

No. 606 V. ROTHSCHILDIANA (V. Sanderiana x V. coerulea)

This is one of the favorites in the blue colors. Flowers are large and profuse in their flowering during the cooler season.

Unflowered,

**\$10 — \$15 — \$20**

Flowered,

**\$40.00 up**

No. 608 V. ELLEN NOA (V. Sanderiana x V. Dearei)

One of the best yellow-colored Vandas. Very heavy substance.

Flowering size,

**\$25.00 up**

**SPECIAL OFFER**

**Vanda Hybrids**

No. 378 V. PROFUSION

427 V. HONOLI

428 V. DENISONIANA, HEBRIACA x V. SANDERIANA

496 V. BOSCHI x V. DEAREI

Four strong plants that will flower in from 6-10 months.

**\$39.50**

VANDA MEVR. L. VELTHUIS

**V. MEVR. L. VELTHUIS**

(V. Sanderiana x  
V. Agnes Joaquim)

A fine strain of this hybrid.  
Our selection is propagated by  
vegetative means, assuring  
you of fine uniform quality.  
Flowering size 15"-18", on  
tree fern.

**\$15.00**

## V. SANDERIANA, LLEWELLYN x SELF

A fine strain of V. Sanderiana, although the species Sanderiana is acknowledged to be of the finest Vanda flowers we have today. These fine selections of the species have been obtained by inbreeding.

Flowering size,

**\$50.00 up**

VANDA SANDERIANA

## V A N D A   S E E D L I N G S

These unflowered Vandas are in small-sized pots for the grower who wishes to start his Vanda collection with small plants. In most cases, these crosses are grown in charcoal.

### No. 524 V. ELLEN NOA x V. BURGEFFI

We expect flat flowers, cream background with brown spots.

**\$3.50 — \$5.00 — \$7.50**

### No. 530 V. ELLEN NOA x V. SUAVIS

Expect light yellow to bronze color with spots.

**2½" — \$1.50**

Larger size,

**\$3.50**

### No. 551 V. LAUKAPU (V. Sanderiana x V. Burgeffi)

This cross should give us Sanderiana-type flowers of excellent quality. White, pink and brown markings predominating. Free flowering.

**\$3.50**

### No. 566 V. LAUKAPU (V. Burgeffi, Pink-Best x V. Sanderiana, F.C.C.)

Same as No. 551, only different parents.

**2½" — \$2.00**

Larger sizes,

**\$5.00 — \$7.50**

## ORCHID SUPPLIES

### THE MODERN *Potting Stick*

Here is the potting stick you have been looking for; made of aluminum with a rubber handle, 12½" long.

Prepaid anywhere in the U. S. A.,  
only

**\$3.25**

If shipped with your order of plants,  
the price is only

**\$3.00**

#### WIRE STAKES (Galvanized)

Prices F.O.B. Miami

## POTS

We are agents in the Miami area for orchid pots and offer our customers a complete stock. Pots must be picked up at our nursery except in the case of loads or part loads which we can arrange to have delivered direct from the pottery.

## **O S M U N D A F I B E R**

We are continually purchasing good quality osmunda fiber from the men who gather it in the Everglades.

We feel that quality osmunda is necessary to grow quality plants.

We will be pleased to ship to you the best grade of Florida osmunda fiber in lots of one or more bales.

# "PYRALIN" ORCHID LABELS

## Make Permanent Accurate Records

By using these indestructible labels to identify your orchid plants, you will increase the value of your collection immeasurably.

### LARGE SIZE

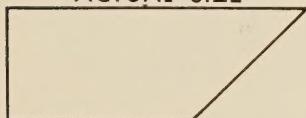

LC. FRANK LIND  
VAR. ORCHIDGLADE  
A.M.A.O.S. 1954  
LC. HELEN WILMER  
X  
LC. WINDERMERE

White, actual size \$1.60 per 100; \$15.00 per 1000

Weight 7 ozs. per 100

In addition to having a permanent record of the correct name of each of your orchid plants and any awards which they may receive, the reverse side of the labels offer an 'at hand' record for such pertinent information as potting data, flowering dates, source of purchase, description of blooms and so forth. This label is larger in size than others on the market, which allows ample space for such information.

### ACTUAL SIZE

WHITE

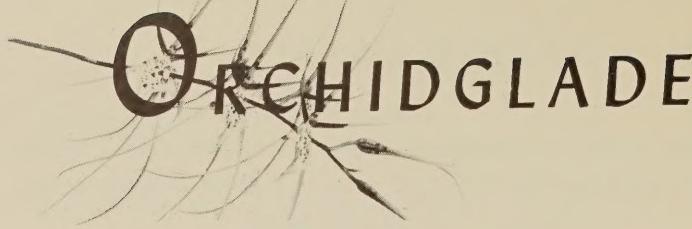

### SEEDLING SIZE

in sheets of 40 labels 25c weight 1/2 oz.

100 labels weight 1 1/2 ozs.

1000 labels \$5.50

A guide to their selection, care and use in decoration. Well illustrated, also in color.

**\$6.95**

## **CONDITIONS OF SALE**

---

1. Orders will be filled in rotation.
2. No substitutions will be made on any order either as to size or variety without authorization.
3. We do **NOT** make a packing charge.
4. Unless otherwise advised, shipment will be made via Railway Express, charges collect. (All orders are F.O.B., Miami.) However, we recommend air express (or air freight on large orders) for shipments destined for countries outside of the United States and for shipments to be made during the winter months when there might be danger of the plants freezing en route.
5. **Claims** for damaged shipments must be filed immediately with the carrier by the consignee. We make every effort to pack carefully, and our responsibility ends when the shipment is accepted by the carrier.
6. On the authority of your local plant quarantine station, please advise us if there are any unusual requirements pertaining to the shipment of plants into your territory or country.
7. Our firm has been properly authorized to handle shipments to Hawaii. However, the customer must forward with his order his permit number which he must obtain from the Board of Commissioners of Agriculture and Forestry, Honolulu.
8. Unless your credit has been established with us, kindly enclose check, money order, or bank draft to cover payment of your order in full.
9. **NON-WARRANTY:** We, JONES AND SCULLY, INC., give no warranty, express or implied, as to the productiveness of any of the plants we sell, and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of these plants.
